IF We trust that all the Whig mem bers of the General Assembly will remember the Caucus which is to be held this evening, at the Senate Chamber of the State House. It is of the ulmost importance that every member should be there, to participate in the deliberations, and to make the necessary arrangements for the organization of the House on Tuesday. At best, we have but a majority of two in the House, and where there is such observork, every vote is needed, and every man is expected to be at his post, and to be faithful to his trust as a Whig, in carrying out the wishes of the Whigs who sleeted him.

The Grand Committee is so close that if all the Whige are punctual and constant in their attendance, we may yet save something from the wreck; and it is desirable to do it, if possible. If m. Thigs are disposed, they can ac-....; an fell as neach now, and perthe ps a little more, than if we had a large majority in the General Assembly. Let us, then, present a bold and undivided front, and stand firm under all circumstances, and we may yet retain some, if not all, of the State Offi-

33-Again we caution our mitizens to In ware of pickpockets and robbers; when you are in the crowd, this evening and tomorrow, hold fast to your packet beoks. Be sure to keep your doors and windows fastened, and you will probably be safe from thieves. If any one is robbed, or it any houses are entered, during Election week, after all the car tion we have given, it will be the fault of those who are robbed, and who have been negligent of our repeated caution.

107 The Democrats in this county have decided to give the office of Sheriff to William J. Roberts, Esq., and both Clerkships to George C. Shaw, Esq. provided they have strength enough in the Grand Committee to do it. In Providence, they have decided upon Burrington Anthony for Sheriff, Edwin Metcalf, Clerk of the Supreme Court, and Levi Salsbury, Clerk of the Court of Common Pleas.

(3-Judge Joslin closes an editorial in regard to election week, with the following words; we presume that by "this sen of York," he alludes to Licut. Governor Lawrence :

To such evidence they will yield their assent; and no longer doubting, adopt the language so appropriate to congrat-

"Now is the winter of our discontent Made glorious Summer, by this son of York."

155 We learn that an extra Police force has been engaged for the week, to watch the rabble who will visit town during that time.

03-The News by the Ningara renders it ortain that the Great Exhibtion will be opened on the appointed day. The rumors of disturbance then to be set on fnot have caused the British Government to concentrate thirty thousand soldiers about London; quite a needless precaution if all the trouble is as imaginary as that to come from this side of the water. In France it is said there is also a great anxiety as to what may turn up; ty no means a new feeling in that quarter. The Frankfort Diet is remainly to be reconstituted, and reseem the supreme authority in Germany ... the next revolution. The Duke of vol. a has got up another insurreccootagal, on what special point we are not informed, though of course it is altogether aristocratic in its purposes. From Turkey we have the painindicatellizence that Kossuth and his immediate friends are still to be kept at Kutatia under the surveillance of the Turkish authorities. We had hoped for bester things,

MURDERED FOR a JOKE .- One of the coldest blooded and most unexcusable this city on yesterday. (Sunday) at the Franklin House. It appears that some one got possession of unc of the late Governor Bebb's blank requisitions for fugitives, then flilled it up for a piece of sport and directed to Thomas Spenrer, a well known cattle dealer, residing in Adelphi, Ross county, and which frequently in this city. This caraged Spencer, and some one, to carry on the joke, told him that it was done by Geo-Parcels, the bar-keeper of the Franklin. He immediately went to where Parcels was, and demanded of him if he had "filled up that paper." Mr. Parcels, in a jocular way, answered "yes," and was about parring out of a door, when Spencer drew a revolver and shot him dead-the ball entering his left side under the arm.
Mr. Spencer is respectably counceted

is or has been a nam of considerable wealth, a large dealer in stock, and not in the habit, a friend of his says, of carrying arms. The whole affair has shocked the public, and will teach, we hope, jokers not to carry their fun too far, and those that are joked, not to take it so serious .- Columbus, O., Statesman, April 21st.

BARNUM OUTDONE.-The Madison Courier relater the following piece of financiering. Mc Elevey, the tailor, who bought the prize ticket to Jenny Lind's first concert in Cincinnati, is one of the few men in the world who are as sharp as Bornum. The way he worked things was this: for some days before the concert, he went around asmong his friends, betting ten dollars with this one, twenty dollars with that one, and so on, until he had a thousand dollars bet that he would buy the prize ticket. The ticket was knocked down to him at \$575, leaving him \$425 in pocket.

Fleceum's New Pictorial.-The most elegant and beautiful thing we ever saw m the shape of a newspaper is Fleeceum's Pictorial Kitchen Toy, just issued by Eph Fleeccum, Esq., of Humbugville. We thought his Flash the greatest paper we ever sow until he started this new concern, but we now cave in, and cry with Macheth, " Hold on, enough P It is edited by Redlow Howhard, Esq., author of "The Beefsteak of a Life-time; or, The Thickness of a Pork-rind," and also editor of the Flash. We see in it many pictures that we have seen before and many that we never did, and probably never shall again. It is a most admirable thing, and no kitchen should be without it .-Exchanges copy ... - Bunkum Flag Staff.

The following characteristic teast was given by one of the Boston Marshale, at a collation given them by Mr. Potter, at his plantation, during their stay in this city :

SINGULAR OCCURRENCE AND PROBA-BLE CRIME. - Welearn from Policeman Robbins, that a young man by the name of George Chapman, of New York, came here a tew days since to embark upon a whaling voyage, and stopped ata sailor boarding house. Yesterday he was met in the street by a person un known to him, who, as it appears, is connected with a house of bad repute at Dog Corner, who informed him that a person was stopping at that house who was very anxious to see him. He accordingly accompanied the individual thither, when he found his step-father there, who after some conversation asked him to drink, and upon his declining to do so, was offered some cake, which was in a small package, saying that it was sent to him by his sister.

After a short interview with his step father, he returned to his lodgings, cating some of the cake on the way, and shortly after was seized with violent spasms and indications of having been poironed. Drs. Bartlett and Jennings were immediately called, and Chapman now lies in a dengerous condition. A warrant has been issued for the arrest of the step-father, but he cannot be found having probably left town. This is the story, as it was told by Chapman, while lying as he supposed at the point of death. It is stated, as the cause of this attempted murder, that Chapman has property which at his death will revert

BY TELEGRAPH.

Buffalo, Mny 2, 1851. A dreadful storm and gale visited this city yesterday morning, doing great damave.

Early yesterday morning the wind commenced blowing furiously from the West, and in the course of two hours: the water in the harbor was raised about three feet above its ordinary level.

The water in the canal at noon was about three inches over the lowpail, nd still rising.

The shipping in the harbor has sur tained much damage in the loss of sails and rigging.

The brig J. Y. Scammin was com pelled to put back on account of the severity of the gale. On entering the harbor she dropped both anchors, which however did not check her progress, when she ranfoul of the canal boat Blue Bell.

A passenger named Hiram Burbanks, aged 18 years, was coming from the cabin when the brig struck the bow of the boat. Mr. B.'s legs became entangled in the fore chains, breaking the left leg above the knee and horribly lacerating the right leg from the knew to the thigh, laying open the flesh and exposing the bone. Medical aid was at once obtained and it is thought he will recover.

During the squall which the Scammon encountered, her topgallant sail was rent to ribbons, besides suffering other damages.

The brig Montezuma, in entering the harbor, ran into the eleamer Empire, forcing her bowsprit into the after cabin of the steamer.

We learn that the schooner Sylphi was sunk, in consequence of a collision with a large vessel in the harbor.

The schooner Mount Vernon was also driven back by the force of the gale. She sustained no damage.

BALTIMORE, May 2, 1851. We learn from the Savannah papers received this morning, that the marshal and his deputies chartered the Welaka on Sunday last, and proceeded in pursuit of the Cuban expedition, which is understood to be concentrating on the

Savannali was full of rumors from all parts of the State, and arrests were expected to be made.

It was generally believed that the invaders would capture and carry off the marshal and his boat. -

Washington, May 2d, 1851. The Intelligencer has information from Georgia that Hon. Alexender 11. Stephens, Whig, declines being a cardidate for Governor, and urges the Union party to rally around Howell Cobb, ex-Speaker of the House of Represen-

The Intelligencer expresses much pleasure at this evidence of fraternization among the leading members of the old parties in Georgia on the great platform of the Union.

Bosron, May 1. The following correspondence was read at a special meeting of the Mayor and Aldermen this afternoon :-

Boston, 21st April, 1951. To the Hon. Daniel Webster, Secretary of State, &c.

Sin :- In compliance with the order of the City Council, passed this day with entire unanimity, we have the honor of inviting you to the city of Boston, to meet and address your fellow citizens in Fancuit Hall, at such time as may be most agreeable to you; and in behalf of the Corporation, of the citizens generally, and of ourselves, we beg leave to assure you that your acceptance of this invitation, should it accord with your feelings and convenience, will be peculiarly gratifying at this time

With the highest respect and consid-Yours. &c... eration, we remain

Signed by 3 Aldermen and 3 Councilmen.

Mr. Webster's reply was as follows: GENTLEMEN :- I have perused the paper which you did me the honor to place in my hands yesterday, and have to say in reply that it is not my purpose to address my follow-citizens in Fancui, Hall during my visit to Boston. I have the honor to be, very respectfully, your obedient servant, Daniel Webster.

LITERARY DISCOVERY .-- The Boston Post save :

"There is a sumor rife in Europe of the discovery of an immense treasure of Greek manuscript, of the highest antiquity, in a cave near the foot of Mount Athes, by a learned Greek named Simonides. Several works quoted by various ancient writers, and latherto deemed entirely lost, are said to be included in this treasure trove. Some of these manuscripts very much ussist the interpretation of hicroglyphic writing, and their aid has already been successfully applied to the inscription on the obelisk of the Hippodrome at Constantinople. The literati of Western Europe are impatient for further news relatire to this important discovery."

ITThe phenomena attending the extinction or coreation of life by submersion in water, render it impossible to say at what distance of time after submersion the attempts at resuscitation will be fruitless. In a late case of drowning, after four hours of indefatigable exertion, animation was so far restored that the individual was able to neticulate.

It is said that Jenny Lind will not virit Boston again.

COUGHS AND COLDS,

Dr. S. P. Townsend's Sarsaparilla contains just the qualities that are requisite in these cases. It acts as a mild alterative and expectorant, thus changing the action of the system, and enabling it to throw off the complaint. The number of instances in which Coughs and Colds have been cured by this preparation is immente.

Jodge M. M. Noah soid, in his "Weekly Messenger," January 6, 1850,

"Dr. Hoofland's German Bitter,—Here is a preparation which the leading presses in the Union appear to be quantiness in recommending, and the cason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hoofland, professor to the University of Jean, private physician to the king of Prussia, and one of the greatest medical writers Germany has everyodized. He was emphatically the enemy of knowledge, and therefore a medicine of which he was the invutor and radour seculion of which he was the invutor and radour seculion of which he was the invutor and radour seculion of the tennach, the Breasch, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the editors spank of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the acticle to all affected."
